

Smoke Outlook for 8/05 - 8/06
Sierra-Inyo National Forest Lions Fires
 Issued at: 2018-08-05 08:30 PDT

Outlook for Sierra-Inyo National Forest

Daily AQI Forecast for Aug 05, 2018

Special Statement

An Air Quality Alert is in effect for Mono County.

Fire

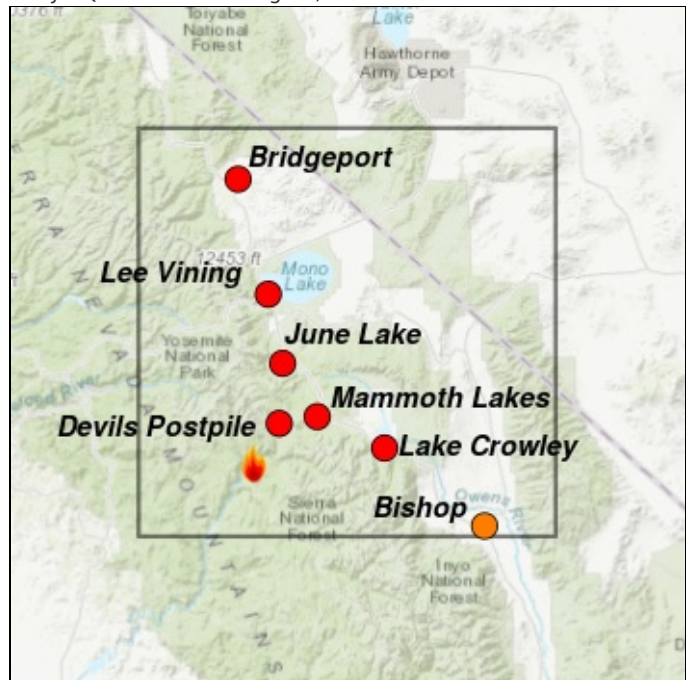

Active fire conditions yesterday created increased smoke production from the Lions Fire and fires to the northeast. The fire is 7,549 acres with 60% containment. Strong winds and low humidity will continue to create dangerous fire weather conditions throughout the region today and this evening.

Smoke

Expect increased smoke production again today from the Lions Fire and fires to the northeast. Expect Unhealthy to Very Unhealthy air quality today. Smoke generated from fire activity today will settle in the lower elevations and pool in lakes and drainage's tonight as temperatures decrease, leading to Very Unhealthy air quality late this evening into the morning.

Other

Accumulated smoke impacts from several fires in California are contributing to Very Unhealthy air quality conditions throughout the area.

Station	Yesterday hourly	Sat 8/04	Forecast Comment for Today -- Sun, Aug 05	Sun 8/05	Mon 8/06
